Executive Summary

Design executive with 18+ years of experience leading large-scale UX and product design initiatives across enterprise, government, and B2B/B2C sectors. Proven ability to align design strategy with business goals, drive innovation through AI and data-informed insights, and deliver measurable impact across insurance, public services, and healthcare.

Expert in building and scaling cross-functional teams, establishing global design systems, and elevating user experiences through agile product development. Adept at influencing C-level stakeholders and embedding design thinking into organizational culture.

Key Competencies

Leadership & Strategy:

- Visionary Product Thinking
- Executive Stakeholder Engagement
- Metrics-Driven UX Strategy
- Design Leadership and Mentorship

Design & Innovation:

- Enterprise UX & Design Systems
- Generative AI in Product Design
- Accessibility (WCAG)
- Research-Driven Design Decisions
- Agile UX & DesignOps

Professional Experience

Areteans | Head of Design

May 2021 – Present

- Built and scaled a **30-member global design team**, reducing delivery timelines by **25%** through design process optimization and governance.
- Established a **reusable design system** integrated across Pega and React SDK platforms, improving visual consistency and reducing rework by **40%**.
- Contributed to strategic RFPs and pre-sales initiatives, helping close **3+ multi-million-dollar deals** by aligning design value with business goals.
- Embedded **AI-driven journey mapping and content generation** into design workflows, reducing research and prototyping cycles by **30%**.
- Championed **outcome-based design**, tying initiatives to **business OKRs** and measurable customer success metrics.
- Created cross-BU collaboration frameworks that improved design quality and alignment across **global delivery programs**.

Ivy | Senior Product Manager / UX Strategy Lead

Dec 2020 – May 2021

- Led UX strategy and product improvements for **Entain PLC's** global betting platforms including **Ladbrokes, Coral, and Gala**, supporting onboarding and account management experiences.
- Redesigned player onboarding flows across web and mobile, improving **completion rates by 18%** while ensuring compliance across regulated markets.
- Built a **modular design library** used by distributed engineering teams, reducing design-dev friction and accelerating delivery timelines by **35%**.
- Collaborated with product, marketing, and engineering to align UX strategy with **go-to-market plans**, platform architecture, and regulatory needs.
- Championed decision-making through **prototyping and usability testing**, improving stakeholder confidence and reducing rework cycles.

Larsen & Toubro | Head of Product Management and Design

Sep 2019 – Dec 2020

- Led the design and product vision for the **Smart World & Communication Platform**, supporting 8+ citizen-facing apps across transportation, emergency response, law enforcement, and urban infrastructure.
- Increased user satisfaction by **28% post-launch** through inclusive, mobile-first designs validated by stakeholder testing and citizen feedback loops.
- Established a centralized **design governance framework**, reducing design–development handoff issues by **20%** and improving consistency across city-wide digital touchpoints.
- Collaborated with leadership across **5 government departments** to define scalable workflows and prioritize product features based on community impact and data insights.
- Contributed to policy alignment by integrating performance analytics, citizen usage data, and field research into experience-driven decision making.

EY | Product Manager & UX Strategist

Aug 2018 – Sep 2019

- Spearheaded UX and product strategy for **OnePortal (e-Pragati)**, consolidating 750+ services across 33 departments into a unified, citizen-first platform for the Government of Andhra Pradesh.
- Launched the portal with features like **Single Sign-On**, **eKYC**, and personalized dashboards, driving a **23% increase in user engagement** in the first quarter post-launch.
- Standardized UI and design workflows across **three major government divisions**, reducing inconsistency and developer rework by **50%**.
- Conducted experience audits and usability testing that improved form completion rates by **15%**, with clear accessibility and mobile readiness enhancements.
- Established a **design KPI and governance framework**, enabling ongoing measurement of usability, service performance, and design quality across the platform.

Pegasystems | Product Owner / UX Collaborator

Oct 2016 – Sep 2018

- Led initiatives to accelerate application delivery, launching **internal tools** that reduced front-end build time by **30%** across Pega's low-code development environment.
- Co-defined UI accessibility guidelines and delivered enhancements to meet **WCAG 2.1 compliance**, ensuring inclusivity across key platform modules.
- Partnered with UX and engineering teams to create a **scalable design component library**, driving consistency and reuse across multiple Pega product suites.
- Drove prioritization of **UX tech debt** based on user impact and engineering effort, aligning usability improvements with product roadmap goals.

Deloitte Digital | Senior Consultant (UX & Scrum Master)

Apr 2013 – Oct 2016

- Delivered UX transformation for global clients including **ING Direct (Australia)**, **DuPont**, and the **UK Government**, modernizing legacy portals into modern, responsive digital platforms.
- Led design sprints and facilitated agile ceremonies to align teams around **product vision**, **usability goals**, and delivery milestones.
- Managed dual responsibilities as **Scrum Master and UX SME**, increasing sprint throughput by **20%** while embedding design thinking into agile delivery.
- Influenced platform strategies for key projects like **ING's DNA banking app** and **DuPont's global intranet**, balancing enterprise needs with customer-centric experience principles.

Host Analytics Inc | Senior Software Engineer

Aug 2012 – Apr 2013

- Developed **modular, performance-optimized UI components** for enterprise-grade financial planning tools, accelerating front-end scalability and reuse.

- Collaborated with product managers and designers to ensure smooth **design-engineering handoff** and alignment during agile delivery cycles.
- Contributed to the definition of **front-end development standards** that improved UI consistency and team onboarding across multiple product streams.
- Participated in backlog grooming and sprint planning, reinforcing product understanding and cross-functional delivery cadence.

MRops (now Dynata) | Associate Team Lead

Feb 2010 – Aug 2012

- Acted as **lead programmer and global delivery coordinator** for 30+ international survey platforms serving clients such as **McDonald's, Pepsi, Toyota, Unilever, Ford, and Abbott**.
- Built and maintained a **multi-language, reusable front-end survey framework** across 20+ countries, improving speed of deployment and data quality.
- Delivered tailored survey solutions for diverse needs including **brand positioning, new product launches, and B2B/B2C segmentation studies**.
- Collaborated across time zones with global project managers to streamline delivery and ensure consistency in UX, localization, and response logic.

Kantar Operations | Software Engineer

Jan 2007 – Feb 2010

- Began career developing **front-end interfaces for global survey platforms**, enabling large-scale data collection across multi-region B2B and B2C studies.
- Built reusable UI templates that supported fast configuration and localization of surveys, improving delivery speed and consistency.
- Worked closely with research teams to translate survey logic into interactive, user-friendly experiences.
- Improved **page performance by 30%** through front-end optimization (JavaScript, HTML, CSS), laying a solid foundation in user-centered engineering.

Education

BITS, Pilani – MBA in AI for Business (2025 – 2027)

Jawaharlal Nehru Technological University – B.Tech, Information Technology (2002 – 2006)

Certifications

- International Certificate in Product Management (IPL-ICPM)
- Certified Scrum Master (CSM)
- Certified Scrum Product Owner (CSPO)
- Certified Scrum Professional – Scrum Master (CSP-SM)
- Certified Scrum Professional – Product Owner (CSP-PO)
- Certified System Architect (CSA v7.2)
- Certificate in Generative AI Mastery (IIT, Hyderabad)
- Blockchain Basics (LinkedIn)

Tool Stack

Figma, FigJam, Adobe XD, Sketch, Miro, ReactJS, Pega UI, Javascript, Typescript, HTML/CSS, Node, Git, JIRA, Confluence

Strategic & Operational Skills

Leadership & Interpersonal Skills:

- Strategic Thinking and Vision Alignment
- Empathetic Leadership and Mentorship
- Stakeholder Influence and Negotiation
- Cross-functional Collaboration
- Decision Making under Ambiguity
- Adaptability and Continuous Learning
- Communication and Conflict Resolution

Project & Program Management Skills:

- Agile and Scrum Methodologies
- UX Roadmap Planning and Delivery
- Prioritization and Resource Allocation
- Sprint Planning and Iteration Management
- Risk Assessment and Mitigation
- Budget and Timeline Oversight
- Performance Metrics and Outcome Evaluation
